

Universities and Colleges

Dry Risers Direct Ltd are proud to protect the future generations by testing the fire protection systems of our great Universities.

Students from Lancaster and Morecombe, Chester, Huddersfield, Keele, Warwick Universities are in good hands with Dry Risers Direct Ltd. We can offer reassurance that students will be in close proximity to compliant firefighting systems.

In this sector, Dry Risers Direct typically carry out the services during the college holidays, minimising any contact with staff and students.

Dry risers are wet pressure tested annually and visually inspected every 6 months in accordance with the British Standard 9990:2015 to ensure the proper functioning of the systems.
